

A Visit to Fusion Food and Culture Festival

How will I get to there? I might arrive by car, take the bus or catch a train.

There is lots to see and do. The friendly staff will be wearing blue shirts with white writing on them. I can ask them for help.

I will see bright colours and beautiful characters who might smile and wave at me.

There will be flashing lights and some loud music with people around. I can bring my headphones and put them on if it gets too noisy.

I might get hungry at the festival. There is lots of food and drinks to choose from. Or I can bring some food from home.

If I need a break or a place to relax for some quiet time, I can go to the Sensory Safe Space on the lawn next to the function centre. There I will find a space away from noise and lights.

Constable Care and my friends at St John Ambulance will be there to help keep me safe. If I get lost I can look for one of the Lost Child Points just like in the picture

The lights will go out for about 10 minutes at 8:50pm. There will be fireworks that make loud noises and flashing bright colours.

I will have lots of fun at Fusion Food and Culture Festival!
