With over 15 years' experience in ICT, construction, safety, and governance, I will bring strong leadership, clear communication, and results driven decision making to Council. I hold a Master of Business Administration and an engineering degree and have led major projects in both the public and private sectors. I am deeply committed to sustainability, inclusion, and effective governance. I believe in three-way communication listening, updating, and acting, so community voices are heard, issues are escalated promptly, and feedback is always followed up on. I will advocate for a safer, greener, and more responsive Council that works for every resident. For years, the same faces have been making the decisions. But it's time for a change. Choosing someone new means choosing energy, accountability & a voice that reflects the future we are heading towards. This time choose someone who stands with you not above you. I promise I will do everything what is right for the community and for WA.
