

### **Additional Information**

As a mother and proud resident of the City of Gosnells for over 25 years, I am deeply committed to creating a safer, more inclusive, and environmentally conscious community for all. This is where I've raised my family, built strong local connections, and worked tirelessly to serve and support those around me.

With a background in journalism, a diploma, and postgraduate studies, I bring strong communication skills, strategic thinking, and a clear understanding of local needs. My passion for advocacy is rooted in lived experience and community involvement.

Protecting our local environment is also close to my heart. As a mother, I care deeply about the world we leave for our children. I actively participate in tree planting and environmental efforts because every resident deserves access to clean parks, green spaces, and a healthy future.

If elected, I will:

- Improve safety, lighting, and local streets

- Expand inclusive youth and senior programs

- Support local businesses and fair jobs

- Advocate for smarter transport and safer train stations

- Protect green spaces and promote environmental sustainability

- Champion real community consultation and multilingual outreach

I'm running to be your strong, dedicated voice on Council, someone who listens, takes action, and delivers results. Together, we can build a City of Gosnells that is safe, connected, and a place we are all proud to call home.

Vote Roya Ansari for dedication, action, and a better future for our families.
