

### **Additional Information**

I have lived most of my life in the City of Gosnells, and this community has always been home for me. Growing up here gave me a strong appreciation of the opportunities, diversity and sense of belonging that make our city unique. Today, my wife and I are fortunate to live in our dream home within the City of Gosnells, where we plan to raise our future children. This personal connection drives my passion for ensuring our community continues to thrive now and into the future.

Professionally, I have spent over a decade working in the education sector in a variety of roles, primarily as a primary school teacher, where I focused on supporting both children and adults to feel valued, respected and heard. I now work at Murdoch University in the integrity field, ensuring fairness, accountability and transparency in complex and sensitive matters. This role, together with my experience as a union representative, has further strengthened my ability to listen carefully, advocate for others and make balanced decisions in the best interests of the community.

If elected to council, I will bring these skills and values to representing the residents of the City of Gosnells. I believe local government should be open, approachable and focused on practical outcomes that matter in people's daily lives, including safer neighbourhoods, vibrant parks and open spaces, responsible development and strong support for families and local businesses.

The City of Gosnells is growing and with growth comes both opportunities and challenges. I am committed to working with residents, community groups and fellow councillors to make sure this growth benefits everyone. My goal is to help shape a community that is inclusive, welcoming and proud of its identity, while ensuring it remains a great place to live, work and raise a family.

It would be a great honour and privilege to represent you on council and to contribute to building a strong and vibrant future for the City of Gosnells.
