

Additional Information

Hi Im Leah I'm 29 years old, I grew up in Thornlie, I graduated from Thornlie Senior High School. My partner grew up in Beckenham and together we chose to raise our family here in Martin in the beautiful rural part of the City of Gosnells,

Our roots run deep here, with our extended family living in other suburbs of the city.

I have spent 14 years working in retail, 11 of those years as a manager in the same business.

In management Ive learned how to communicate and collaborate with a wide variety of people and have good problem solving skills, to name a few.

I am a young, fresh voice with a vibrant personality, strong communication skills, and I love to connect with people. I am approachable, comfortable engaging with others. Public speaking is one of my strengths, and I am not afraid to ask hard questions or to take part in difficult conversations.

I believe I have the energy, and passion to devote myself fully as a councillor.

For the last few years, I have regularly attended council meetings, keeping a finger on the pulse of what is happening across the city. This has given me insight into how council operates, how decisions are made and how those decisions affect the lives of residents. I have seen the importance of having councillors who listen, ask the right questions, and advocate on behalf of the community.

Being a councillor is more than the bins and roads stereotype. Its planning for the future and representing the voice of the community, whether its more parks, increasing tree canopy, protecting the rural area or support for local businesses to list a few. I will always advocate for what is right, fair, and aligned with the community's needs.

I have a vision that the next generation of families just like mine can enjoy the same opportunities, safety, and sense of belonging that I was fortunate to grow up with.

I want to serve, lead, plan for the future and make a difference for the City of Gosnells.
